

PEDS TRAINING

PEDS - Parents' Evaluation Of Developmental Status

PEDS is a well validated tool for detecting developmental and behavioural problems in children from birth through to eight years of age. This methodology involves asking parents to complete a ten-item questionnaire.

This training is designed to teach a broad range of professionals to use this tool in order to begin a dialogue with parents about any concerns they may have about their children's development or behaviour.

PEDS - Parents' Evaluation of Developmental Status: was designed to facilitate parent / professional communications and to ensure that developmental and behavioural problems in children aged 0 – 8 years of age are detected and addressed in a collaborative manner.

The training will cover:

- The development and use of PEDS
- The scoring and interpretation of the PEDS
- Use of the Brigance - a secondary screen

Dates: Friday 19th September, 2008, 9am-1pm

Location: Centre for Community Child Health
Seminar Room
6th Floor, South East Building
(Gatehouse St Entrance)
Royal Children's Hospital
Flemington Rd, Parkville

Cost: \$90 per person (incl GST)

All the PEDS materials are available to be purchased from the Centre for Community Child Health.
