About this guide	4
Geographical areas covered by this guide	4 - 5
Index of languages listed by country	6 - 7
GPs listed by language	8 - 49

About the Guide

GPs Who Speak Your Language is designed for use by agencies who deal with people whose first language is not English and who are in need of a family doctor.

The GPs listed may have varying degrees of fluency in the client's language. It is important when making an appointment to discuss the reason for referral and any linguistic or other special needs of the patient.

It is recommended that you transcribe the relevant information, or photocopy the relevant page. Please do not give out whole copies of this guide to clients/patients.

Entries are listed in order of:

1. Language Name
2. Gender of Doctor
3. Name of Doctor.

This guide is not an exhaustive list of GPs who consult in languages other than English.

A listing of GPs by language for all areas of Victoria can be accessed from the Better Health Channel www.betterhealth.vic.gov.au. Use the 'Advanced Search' on the bottom right hand column of the home page. Then go to 'Find a language' and select the language, general practitioner and suburb/town. Click on the 'Search' button to produce a listing of GPs who speak the selected language in that area.
