Pharmacy Intern Training Program

Pharmacy Intern Program Coordinator

Mrs Carly Nunn
Clinical Pharmacist
Pharmacy Intern and Student Education Co-ordinator
Tel. 03 9345 6988 or 9345 5492
E-mail carly.nunn@rch.org.au

Pharmacy Intern Training Program

- Pharmacy Interns will have a week of orientation to the RCH Pharmacy department to learn basic technical and clinical skills before integration into the general roster
- Each pharmacy intern is assigned their own preceptor for the year. Preceptors will periodically evaluate an intern's performance to assist with their development throughout the year
- During the intern year, interns will spend time in all areas of the RCH Pharmacy Department including: ward pharmacy services in a variety of clinical areas, outpatient dispensary, oncology pharmacy, sterile and non-sterile manufacturing and the Drug Information Centre. Rotations will be 3-4 weeks in length
- After a period of clinical pharmacy training, pharmacy interns will be given the opportunity to be responsible for the pharmacy services of an allocated ward for a 3-4 week period (with the support and supervision of pharmacists)
- The RCH Pharmacy Internship manual provides a list of objectives and self-directed learning activities for each rotation
- RCH offers a comprehensive pharmacy intern tutorial program, covering a wide range of drug therapies and primary healthcare topics as well as practice exam sessions
- Pharmacy interns are given the opportunity to spend a week working in a community pharmacy of their choice to assist with exam preparation
- Two pharmacy intern positions are available which offer a 6 month placement working at The Royal Children's Hospital and a 6 month placement working in the pharmaceutical industry at CSL also located in Parkville
