14 September 2016

INVITED INTERNATIONAL SPEAKERS

Global leader and “renaissance woman”

Professor Nadia Rosenthal
PH.D., F.MED.SCI

Scientific Director
The Jackson Laboratory for Mammalian Genetics

Science magazine described Nadia as a “Renaissance Woman – geneticist, artist and bon vivant”. During her illustrious career Nadia has circumnavigated the globe (University of Wales, Harvard Medical School, Imperial College London, EMBL, the Australian Regenerative Medicine Institute and the Jackson Laboratory in the US), she is internationally renowned as an expert in regenerative medicine, she is an inspiration to and advocate for women in science, and in her spare time she is a talented artist (she has designed a cover for *Nature* and draws the illustrations for *Differentiation*).

One the best known moral philosophers in the world

Professor Julian Savulescu
B.MED.SCI.(HONS.), M.B.(HONS.), B.S.(HONS.), M.A.,
PH.D.

Uehiro Chair in Practical Ethics University of Oxford

Julian holds the Uehiro Chair in Practical Ethics at the University of Oxford. He holds degrees in medicine, neuroscience and bioethics. He is a leader in medical and practical ethics. He is engaged in research, education and stimulating open discussion around the ethical issues arising in everyday life.

Campus Research and Education Week
MCRI Scientific Symposium 14 September 2016
PROGRAM

Ella Latham Auditorium

9am	Welcome Prof Kathryn North - Director, MCRI	REGISTER
9.30am	Keynote speaker: Prof Nadia Rosenthal "A magnificent obsession – my career in research"	
10.30am	Morning tea	
11am	It Takes A Village Graeme Barnes Andrew Steer Kim Mulholland Neurons to Neighbourhood Rick Leventer Deanne Thompson Sharon Goldfeld	REGISTER
12.30pm	Grand Rounds Keynote speaker: Prof Julian Savulescu "Gene editing is a moral imperative"
