The Royal Children's Hospital

The Royal Children's Hospital's (RCH) vision is A world where all kids thrive.

RCH is located within the Melbourne Biomedical Precinct, with more than 45 world-class biomedical organisations and more than 50,000 of the brightest minds working together to make the Precinct number one in the Asia Pacific region for health, education, research, and training. Within this, RCH is also a cornerstone member of the Melbourne Children's Campus, partnering with Murdoch Children's Research Institute, The University of Melbourne Department of Paediatrics and The Royal Children's Hospital Foundation. Each organisation contributes to a paediatric academic health centre which is greater than the sum of its parts.

RCH has cared for the children and young people of Victoria for more than 150 years since it was founded in 1870. A full range of paediatric and adolescent health services are provided plus tertiary and quaternary care for the most critically ill and medically complex patients in Victoria, Tasmania, southern NSW and other states around Australia and overseas. The RCH is the only provider of heart transplant services and CAR T-cell therapy for paediatrics in Australia. RCH is an effective advocate for patients and their families with a particular focus on vulnerable children and increasingly, mental health in young people. The hospital also supports many health promotion and prevention programs. The Hospital has more than 6,000 staff, a budget of \$850M, 12 wards and 350 beds. Annually, the RCH has 300,000+ Specialist Clinic appointments, 90,000+ Emergency Department presentations and 20,000 elective surgeries.

We work collaboratively with hospitals to deliver the right care, in the right place, at the right time. The RCH is committed to the Child Safe Standards <https://www.rch.org.au/quality/child-safety/>.

RCH enjoys high employee engagement and is committed to staff safety and a positive culture through enactment of our Compact.

Further information on RCH is available at www.rch.org.au

ROLE PURPOSE

Vascular Anomalies is a rapidly expanding area with medically complex patients requiring multidisciplinary care. Paediatric dermatology is currently the most under-resourced large field of paediatrics, with an urgent need for increased clinical service provision. There is much overlap between these two fields and the clinical benefits of a combined fellowship are compelling. The Vascular Anomalies and Paediatric Dermatology Registrar provides the opportunity for a Paediatric Advanced Trainee to gain expertise in these fields. They will work in partnership with a multidisciplinary team, with close collaboration with general medicine, dermatology, plastic surgery, laser, ophthalmology, and interventional radiology departments. They will enhance the provision of specialist care to children with vascular anomalies and skin disease. The Registrar will be trained in research and management skills in Paediatric Vascular Anomalies and Paediatric Skin.

Role comprises of 3 weekly Outpatient clinics 1x Dermatology and 2x Paediatric Skin

***** In addition this role will participate in the Junior Medical Staff weekend on call roster as well as the SSU and Evening Medical Lead weekend roster (weekend commitment is approximately 1 in 5). Weekend shifts are paid in accordance with the applicable enterprise agreement.***

KEY ACCOUNTABILITIES

Clinical Services

Outpatients

- Provision of clinical care in the outpatient setting in a supervised capacity in Vascular Anomalies, Paediatric Skin and Dermatology clinics
- Responsible for onward referrals, investigations, documentation and liaison with primary care providers

Short Stay Unit

- Clinical care of acute general paediatric conditions for patients expected to require admission <48hrs
- Pivotal decision maker and responsible for admissions, discharges and clinical assessments/procedures
- Recognition and management of deteriorating patients

Evening Medical Lead

- Acute clinical assessment and management of admitted patients including those under the care of subspecialty teams
- After hours leadership position across the hospital, involving coordination of workload and patient care and ensuring that the rostered junior medical staff are working collaboratively as a team
- Liaison with ED and Bed Manager as required
- Assist with medical admissions, assessments, and procedures for inpatients
- Participation in daily consultant led ward round of SSU patients (4-5pm)

Research

- Completion of a research project in Vascular Anomalies

Education

- Organisation and participation in the fortnightly Vascular Anomalies Teaching and Multidisciplinary meetings, including Journal club.
- Involvement in the teaching of medical students, paediatric residents, and registrars

- Participation in educational activities available through the Royal Children's Hospital and The Murdoch Children's Research Institute
- Online or in person participation at International Society of Vascular Anomalies workshops and paediatric dermatology meetings.
- Timely completion and compliance with all hospital mandated training

Non Clinical

- Timely and accurate completion of patient related documentation, including EMR encounters, ward round documentation, outpatient documentation and any other required documentation relevant to enhancing continuity of care

Performance Review

- Attendance at regular meetings with the supervisor to assess progress and guide self-directed learning.
- Participation in self-reflective practice

IMPORTANT INFORMATION

All employees are required to adhere to the Royal Children's Hospital Values:

- Curious - We are creative, playful and collaborative
- Courageous - We pursue our goals with determination, ambition and confidence
- Inclusive - We embrace diversity, communicate well, build connections and celebrate our successes together
- Kind - We are generous, warm and understanding

RCH COMPACT

All new and existing employees commit to the RCH Compact to contribute to a strong and respectful culture.

- We do better work caring for children and families when we also care for each other
- I bring a positive attitude to work – I share, I laugh, I enjoy other's company
- I take responsibility for my behaviour and its impact on others
- I am curious and seek out ways to constantly learn and improve
- I celebrate the good stuff, the small stuff, the big stuff – it all matters
- I speak up when things aren't right
- I value the many different roles it takes to deliver great patient care
- I actively listen because I want to understand others and make better decisions
- I am inclusive and value diversity
- When it comes to teamwork, I don't hold back – I'm all in

QUALITY, SAFETY AND IMPROVEMENT

RCH employees have a responsibility and accountability to contribute to the organisation's commitment to Quality, Safety and Improvement by:

- Acting in accordance and complying with all relevant Safety and Quality policies and procedures
- Identifying risks, reporting and being actively involved in risk mitigation strategies
- Participating in and actively contributing to quality improvement programs
- Complying with the requirements of the National Safety & Quality Health Service Standards
- Complying with all relevant clinical and/or competency standards
- Complying with the principles of Patient and Family Centred Care that relate to this position

The RCH is committed to a diverse and inclusive workforce. We encourage applications from Aboriginal and Torres Strait Islander people, people from culturally and/or linguistically diverse backgrounds, all members of the LGBTQI community and people with disability.
