- 1 Sign into your Omnipod account, navigate to **My Account** and select **Account Linking** in the main menu
- 2 Click **'Enrol in Discover'**
- 3 When asked, **enter the clinic code** to share data with your healthcare professional.

Clinic Code:

50345790

Always follow the directions for use.

The Omnipod® 5 Automated Insulin Delivery System is a single hormone insulin delivery system intended to deliver U-100 insulin subcutaneously for the management of type 1 diabetes in persons aged 2 and older requiring insulin.

Refer to the Omnipod® 5 Automated Insulin Delivery System User Guide and www.omnipod.com/en-au/important/safety/information for complete safety information including indications, contraindications, warnings, cautions, and instructions.

Omnipod Discover™ is a retrospective data analytics and reporting system intended for Omnipod® 5 System users or their caregivers and their healthcare providers for the analysis of glucose and insulin delivery data in home and healthcare settings. It is intended as supplemental data for the users to support diabetes management and aid healthcare providers in patient care. Omnipod Discover™ is not intended for people with diabetes in acute care settings or for real-time patient monitoring. The Omnipod Discover software platform is not intended to replace the primary real-time display of the sensor or insulin delivery data on the device, nor does it control any functions of the Omnipod® 5 System. Any medical treatment decision or adjustments should not be made based on this software platform; a qualified healthcare professional needs to be consulted to make such decisions.
