## STATEMENT OF COMMITMENT TO CHILD SAFETY

The Yalingbu Yirramboi – The Royal Children's Hospital School is a child safe organisation which welcomes all children, young people and their families/caregivers.

We are committed to providing environments where our students are safe and feel safe, where their participation is valued, their views respected, and their voices are heard about decisions that affect their lives. Our child safe policies, strategies and practices are inclusive of the needs of all children and students.

We have no tolerance for child abuse and take proactive steps to identify and manage any risks of harm to students in our school environments.

We promote positive relationships between students and adults and between students and their peers. These relationships are based on trust and respect.

We take proactive steps to identify and manage any risk of harm to students in our school environment. When child safety concerns are raised or identified, we treat these seriously and respond promptly and thoroughly.

Particular attention is given to the child safety needs of Aboriginal students, those from culturally and linguistically diverse backgrounds, students with disabilities, those unable to live at home, children and young people who identify as lesbian, gay, bisexual, trans and gender diverse, intersex and queer (LGBTIQ+) and other students experiencing risk or vulnerability. Inappropriate or harmful behaviour targeting students based on these or other characteristics, such as racism or homophobia, are not tolerated at our school, and any instances identified will be addressed with appropriate consequences.

Child safety is a shared responsibility. Every person involved in our school has an important role in promoting child safety and wellbeing and promptly raising any issues or concerns about a child's safety.

We are committed to regularly reviewing our child safe practices, and seeking input from our students, their caregivers, staff, and volunteers to inform our ongoing strategies.

Our Principal and Assistant Principals are the first point of contact for child safety concerns or queries and for coordinating responses to child safety incidents.

Our Principal monitors the Child Safety Risk Register.

## CHILD SAFETY CODE OF CONDUCT

Our Child Safety Code of Conduct sets the boundaries and expectations for appropriate behaviours between adults and students. It also clarifies behaviours that are not acceptable in our physical and online environments.

We ensure that students also know what is acceptable and what is not acceptable so that they can be clear and confident about what to expect from adults in the school.

The Child Safety Code of Conduct also includes processes to report inappropriate behaviour.

## MANAGING RISKS TO CHILD SAFETY AND WELLBEING

At our school we identify, assess and manage risks to child safety and wellbeing in our physical and online school environments. These risks are managed through our child safety and wellbeing policies, procedures and practices, and in our activity specific risk registers.

Our Child Safety Risk Register is used to record any identified risks related to child abuse alongside actions in place to manage those risks. Our School Leadership Team will monitor and evaluate the effectiveness of the actions in the Child Safety Risk Register at least annually.

Yalingbu Yirramboi – The Royal Children's Hospital School staff will supervise students properly in all learning environments. We will give particular attention to the safety, diverse needs and vulnerabilities of our students in each activity and setting. Staff will consider the barriers that may prevent our students from raising concerns and provide reasonable adjustments accordingly. Individual Education Plans and Behaviour Support Plans will be utilised to ensure risks are considered and addressed at an individual student level.

## ESTABLISHING A CULTURALLY SAFE ENVIRONMENT

At the Yalingbu Yirramboi – The Royal Children's Hospital School, we are committed to establishing an inclusive and culturally safe school where the strengths of Aboriginal culture, values and practices are respected.

We think about how every student can have a positive experience in a safe environment. For Aboriginal students, we recognise the link between Aboriginal culture, identity and safety and actively create opportunities for Aboriginal students and the Aboriginal community to have a voice and presence in our school planning, policies, and activities.

We have developed the following strategies to promote cultural safety in our school community:

- Planning for the school year includes a focus on Koorie history and cultural practice and inclusive learning environment displays
- Celebration and/or observation of key days such as: National Aboriginal and Torres Strait Islander Children's Day, NAIDOC week, Cultural Diversity Week, Harmony Day

## STUDENT EMPOWERMENT

To support child safety and wellbeing at the Yalingbu Yirramboi – The Royal Children's Hospital School, we work to create an inclusive and supportive environment that encourages students and caregivers to contribute to our child safety approach and understand their rights and their responsibilities.

Respectful relationships between students are reinforced and we encourage strong friendships and peer support in the school to ensure a sense of belonging through our school values. In addition, each student's Individual Education Plan (IEP) includes a Wellbeing Goal that is co-created with the student.

We inform students of their rights through their partnership in the development and implementation of their IEP and personalised wellbeing support aligned to the PERMAH (Positive Emotions, Engagement, Relationships, Meaning, Accomplishment, and Health) Wellbeing Framework. We give students the skills and confidence to recognise unsafe situations with adults or other students and to speak up and act on concerns relating to themselves or their peers. We ensure our students know who to talk to if they are worried or feeling unsafe and we encourage them to share concerns with a trusted adult at any time. Students and families can also access information on how to report concerns via the school's Complaints Policy.

When the school is gathering information in relation to a complaint about alleged misconduct or abuse of a child, we will listen to the complainant's account and take them seriously, check our understanding of the complaint, support the student and keep them (and their parents and caregivers, as appropriate) informed about progress.

We empower students in the below listed ways:

- Display visually engaging and easy-to-read posters promoting student voice and agency
- Demonstrate that our school takes students seriously by acting on their concerns, noting that what might seem unimportant to an adult may be important to a young person
- Students can contribute to and provide feedback on decisions about school operations through consumer surveys. Students are also encouraged to speak with their teachers and treating team members whenever they have any questions or concerns
- Provide students with multiple avenues for communicating, including writing, drawing, and alternative physical forms of communication

Yalingbu Yirramboi – The Royal Children's Hospital School also refers to PROTECT Child Safe Standard 3 for guidance.

## FAMILY AND CAREGIVER ENGAGEMENT

Our families, caregivers and the school community have an important role in monitoring and promoting children's safety and wellbeing and helping children to raise any concerns.

To support family engagement, at the Yalingbu Yirramboi – The Royal Children's Hospital School we are committed to providing families and community with accessible information about our school's child safe policies and practices and involving them in our approach to child safety and wellbeing.

We will create opportunities for families to have input into the development and review of our child safety policies and practices and encourage them to raise any concerns and ideas for improvement.

We do this by:

- Family and caregiver engagement in the student's IEP development
- All of our child safety policies and procedures will be available for students and parents on our school website

At Yalingbu Yirramboi – The Royal Children's Hospital School we:

- Build an understanding of the student through multiple information channels available such as via Royal Children's Hospital multidisciplinary teams, engagement with the base school and throughout the consultation phase of IEP development
- Due to the unique classroom situation where group work students are not known to each other, a supportive classroom environment is prioritised by staff and students
- Communicate that discrimination and bullying are not tolerated – if incidents of bullying or discrimination occur, we address the incident in line with school policy
- Let students know they can raise concerns or report incidents that occurred at school and outside the school
- Check in with vulnerable students and their families to confirm their needs are being met. This can occur at Student Support Groups, Royal Children's Hospital multidisciplinary team meetings or through informal discussions
- Engage genuinely with students. We aim to find out what matters to them, what they know and don't know about safety, and what they need to be safe and feel safe
- Validate students' feelings. We understand that students may feel that they have not been listened to or believed in the past.

## COMPLAINTS AND REPORTING PROCESSES

The Yalingbu Yirramboi – The Royal Children's Hospital School fosters a culture that encourages staff, volunteers, students, parents, and the school community to raise concerns and complaints.
