

Melatonin

Needs a private prescription

Registered Drug via most pharmacies: Circadin 2mg SR. Not on PBS

Compounding pharmacies

- Each pharmacy tends to dispense different formulations & strengths (eg capsules vs drops vs liquids).
- Typical immediate release capsules are 3mg but many also make other strengths
- Typical drop strength is 3mg in 5 drops but many also make other strengths
- Typical Liquid preps are 1mg/ml but many also make other strengths
- Costs can vary widely and it can be worth shopping around.
- Larger bottles of liquid preparations can be more economical
- Liquids can sometimes be more economical than capsules even if the child is old enough for capsules.
