Management and Reporting of Student Nurse Incidents during Clinical Placement at RCH
- Undergraduate & Entry to Professional Practice
The Royal Children's Hospital (RCH) Management and Reporting of Student Nurse Incidents during Clinical Placement at RCH.

This procedure has been written based on recommendations made in the KPMG audit: “The Royal Children's Hospital, Internal audit report of Undergraduate Nurse Placement Program” September, 2009 and updated to represent contemporary practice.

**Edition 2, April 2017**

This edition updated by Stacey Richards with acknowledgments to previous updates by Priscilla Stephenson & Laura Brooks.

Overview

The purpose of this procedure is to provide a clear framework for Preceptors, the Nursing Education Team and Nurse Unit Managers in the management and reporting of incidents in relation to student nurses while on clinical placement at RCH.

The policies and procedures related to risk management (see links below) that are currently in place at RCH still apply and should be followed. This Nursing Education procedure is to be used as an adjunct to the RCH policy, directly in relation to dealing with student nurses in the event an incident occurs.

The structure of this procedure is based on the Victorian Health Incident Management System (VHIMS) consequence rating scale for ease of understanding and reporting an incident. For this procedure, the rating scale has been grouped into three groups to cover the broad areas of incident reporting and management. These are:

- Major or Catastrophic Incident
- Moderate Incident
- Insignificant or Minor Incident

Each section also contains within it an escalation matrix to represent the method by which each incident should be dealt with and subsequently reported.

Definition of Terms

Student Nurse - An individual who is currently undertaking a Bachelor of Nursing or Master of Nursing Science degree at a University and is taking part in a clinical placement at RCH as part of that course. Also called entry to professional practice student.

Incident - An accidental and/or dangerous occurrence with potential to cause injury/harm to self and/or others.

Clinical placement - The course component of the Bachelor of Nursing or entry to practice Masters in Nursing, taken outside the University within a health care facility where clinical education is undertaken through direct supervision by a Preceptor (or a clinical teacher).

Education Team - Clinical Nurse Educators (CNE) and Clinical Support Nurses (CSN)

Preceptor - A Registered Nurse who is formally assigned to provide transitional support and supervision for an agreed upon period of time to a nursing student through education, role modelling and socialisation. Enrolled Nurses (EN) are not able to supervise student nurses as the EN scope requires them to work under the indirect supervision of a Registered Nurse.
Procedure Details

Major or Catastrophic Incident (incorporating VHIMS consequence rating scale 4 & 5)

Definition:
Any event, or series of events, involving a student nurse that is sudden, overwhelming, threatening or protracted.

Example:
Any event that causes major or catastrophic harm to a patient, family member or other staff member either deliberate or non deliberate, direct or indirect.

- incorrect administration of medication that is harmful
- incorrect procedure on patient causing injury
- assault (including aimed at student nurse)

Preceptor/CNS/CNE - contact Nurse Educator, Undergraduates directly, mobile 0478479569, ext. 55775, page 5775. If unable to contact try Nursing Education administrator on ext. 56716. **Time frame:** ASAP and within one hour

Report incident to NUM

VHIMS lodged by Preceptor (or anyone else applicable)

NUM sends report to Nursing Education

Report to Executive Director of Nursing & Allied Health. **Time frame:** ASAP

Nurse Educator, Undergraduate to liaise with ward and applicable others to risk manage event and prevent re-occurrence

Nursing Education provides feedback to involved parties to inform of outcome

Director of Nursing Education to contact appropriate University to inform of incident (cat 4, 5).

After hours: Contact after hours coordinator on page 4000

After hours coordinator to escalate to executive on call as needed

Nurse Educator, Undergraduates to inform Director of Nursing Education directly via mobile (text/phone) 0435658702. **Time frame:** ASAP

Quality sends report to NUM

After hours coordinator to escalate to executive on call as needed
Moderate Incident (VHIMS rating scale 3)

Definition:
Any event or series of events involving a student nurse that causes unexpected and reversible harm to a patient, family member or staff or causes harm to the hospital's credibility / confidentiality.

Example:
- Incorrect administration of medication that is non harmful or potentially but not actually harmful
- Posting details of RCH information online
- Contamination with biological material

Nursing Education provides feedback to involved parties to inform of outcome
Insignificant or Minor Incident (VHIMS rating scale 1 & 2)

Definition:
A near miss that does not cause harm to patient, family member or staff but had the potential to if the action had been carried out. Alternatively, very minor harm causing a minor impact on increased length of stay, client satisfaction or clinical outcome.

Example:
- Incorrect procedure almost performed on patient but caught in time.

Escalation Matrix showing the chain of reporting for an Insignificant or Minor Incident

Minor or insignificant Incident

Preceptor/CNS/CNE - contact Nurse Educator, Undergraduates directly, mobile 0478479569, ext. 55775, page 5775. If unable to contact try Nursing Education administrator on ext. 56716. **Time frame:** within one week

Report incident to NUM

Submit VHIMS if deemed appropriate (keep in mind that VHIMS should also be used for near miss events)

Applicable NUM sends report to Nursing Education

Quality sends VHIMS report to NUM

Nurse Educator, Undergraduate to contact appropriate University to report incident.

Nurse Educator, Undergraduate to liaise with ward and applicable others to risk manage event and prevent re-occurrence

Nurse Educator, Undergraduate to send report of VHIMS to University
Individual responsibility in reporting of an incident involving a student nurse:

**Student Nurse**
- Report incident immediately to your Preceptor, AUM, CNE/CSN or Nurse Educator, Undergraduates.
- Seek first aid/medical treatment for self or patient immediately.
- Seek debriefing opportunity from RCH or University staff as required.

**Preceptor / AUM / CSN/ CNE**
- Assist the student nurse to access appropriate first aid/medical treatment for self or patient immediately. Following RCH policies & procedures as appropriate, i.e. needle stick injury policy.
- Incident and Injury and Hazard Reporting
- Report incident to NUM.
- Submit a VHIMS report. Ensure the student nurse is involved in this process as a learning experience (if appropriate).
- Ensure the Nurse Educator, Undergraduate has been informed.
- Provide debriefing/support to the student nurse and preceptor as required.
- Initiate open disclosure procedure if necessary. If appropriate involve student in this process.

**NUM**
- Incident and Injury and Hazard Reporting
- Forward the VHIMS report to Director of Nursing Education & Nurse Educator, Undergraduate once received from Quality.
- Ensure student nurse is receiving appropriate support from RCH staff.

**Nurse Educator, Undergraduate**
- Liaise with appropriate personnel to manage the incident (in conjunction with Director Nursing Education for major or catastrophic incidents).
- In the event of moderate/major/catastrophic incidents immediately communicate with Director of Nursing Education via mobile phone (phone/text).
- Provide feedback to ward and student nurse of the outcome of the incident and changes that will be/have been made to prevent re-occurrence.
- Contact the University to inform of incident, as appropriate.
• Where the severity of the incident requires actions (i.e. clinical challenge, immediate cessation of clinical placement), these should be planned and delivered in conjunction with the University and Director of Nursing Education.

• Provide student nurse with support and offer debriefing sessions as needed. Encourage them to utilise University services as needed.

Director, Nursing Education

• Report any major or catastrophic incidents to Executive Director of Nursing & Allied Health immediately. Less severe incidents may needed to be reported to as necessary, this should be a case by case consideration.

• Contact the appropriate University to inform them of any major or catastrophic incidents.

After Hours Coordinator

• Contacted only for major or catastrophic incident, which occur after hours. Moderate incidents may also need to be reported after hours, this should be a case by case consideration.

• Major or catastrophic incidents should be escalated to executive on call.

• Ensure the staff have submitted a VHIMS report.

• Contact by phone (only if appropriate to circumstances) or e-mail the Director of Nursing Education the first opportunity to inform of incident.

• Provide support to RCH staff &/or student involved if necessary to ensure any immediate/ongoing risks for the shift are eliminated until further follow up can be instigated.
