

Certificate in Paediatric Nutrition & Dietetics – Unit 1

Come and do the Paediatric Dietetics course that everyone talks about!

In 2024, we are thrilled to offer our course face-to-face again- commencing with Unit 1 in September. Our face-to-face course allows for unique learning opportunities with like-minded dietitians in both lecture and workshop formats. Doing the course in-person allows for interaction with other paediatric dietitians, best practice discussions, hands-on workshops, and small group learning. We also include social events with the RCH Dietitians and the opportunity to come and see our lovely hospital.

The Department of Nutrition and Food Services at the Royal Children's Hospital (RCH) in Melbourne began a Certificate in Paediatric Nutrition and Dietetics in 1997. This highly regarded course is exclusively for qualified dietitians, with the course content targeted to meet the training needs and learning outcomes for paediatric dietitians. Our course is a highly desirable addition to any resume!

Entry criteria

Candidates must hold a graduate or post graduate qualification in Dietetics. Evidence of qualifications must be provided.

2024

Unit 1: Monday 16th -Thursday 19th September 2024, and will run in a face-to-face format at RCH. This will **only** be offered face-to-face this year.

Course hours

8.45am - 4.00pm daily. Note some days will have slightly altered hours. Approximately 24 contact hours with additional non-contact hours required to complete an assessment task.

Assessment

Assessment is by a written online examination (multiple choice questions and short answer questions) to be completed following the unit. Participants must pass the examination to receive a certificate of completion.

Venue

Ella Latham Theatre, The Royal Children's Hospital, 50 Flemington Road, Parkville, VIC 3052, Australia

Price

\$950 (excluding GST)

Registration

To register you will need to create an account on the RCH online learning platform (<http://learn.rch.org.au>) and register online for the course.

Registrations close 04/09/2024.
