| Location | The Royal Children's Hospital, Flemington Road, Parkville | | |

The Royal Children's Hospital

The Royal Children's Hospital's (RCH) vision is to be a great children's hospital – delivering Great Care, Everywhere.

RCH is located within the Melbourne Biomedical Precinct, with more than 45 world-class biomedical organisations and more than 50,000 of the brightest minds working together to make the Precinct number one in the Asia Pacific region for health, education, research, and training. Within this, RCH is also a cornerstone member of the Melbourne Children's Campus, partnering with Murdoch Children's Research Institute, The University of Melbourne Department of Paediatrics and The Royal Children's Hospital Foundation. Each organisation contributes to a paediatric academic health centre which is greater than the sum of its parts.

RCH has cared for the children and young people of Victoria for more than 150 years since it was founded in 1870. A full range of paediatric and adolescent health services are provided plus tertiary and quaternary care for the most critically ill and medically complex patients in Victoria, Tasmania, southern NSW and other states around Australia and overseas. The RCH is the only provider of heart transplant services and CAR T-cell therapy for paediatrics in Australia. RCH is an effective advocate for patients and their families with a particular focus on vulnerable children and increasingly, mental health in young people. The hospital also supports many health promotion and prevention programs. The Hospital has more than 6,000 staff, a budget of \$850M, 12 wards and 350 beds. Annually, the RCH has 300,000+ Specialist Clinic appointments, 90,000+ Emergency Department presentations and 20,000 elective surgeries.

We work collaboratively with hospitals to deliver the right care, in the right place, at the right time. The RCH is committed to the Child Safe Standards <https://www.rch.org.au/quality/child-safety/>.

RCH enjoys high employee engagement and is committed to staff safety and a positive culture through enactment of our Compact.

Further information on RCH is available at www.rch.org.au

The Paediatric Integrated Cancer Service (PICS) is a partnership between RCH, Monash Children's Hospital (MCH) and Peter MacCallum Cancer Centre (PMCC). The aim of the collaboration is to improve the planning and delivery of care for children with cancer across Victoria. As a member of staff working within the partner health services, the PICS staff are expected to collaborate within their area of expertise. Staff members are required to work with colleagues across sites in a seamless manner supporting the clinical and administrative staff who deliver care to children and their families. Further information on the PICS is available at www.pics.org.au

The Long Term Follow-Up Program (LTFP) is a state-wide Paediatric Oncology Survivorship program, providing clinical follow up to children and adolescents under the age of 18 who have previously been treated for cancer. The service provides a multi-disciplinary team approach to the management of the side effects of cancer treatment and the continued surveillance of childhood cancer survivors. The clinics are delivered at RCH, Parkville and MCH, Clayton and at regional partner hospitals. The LTFP liaises with the Regional Outreach Shared Care Program to support the delivery of Long Term Follow-Up to patients living in regional and rural Victoria. It provides each individual with a tailored approach to meet their ongoing needs and an appropriate transition plan to adult-based, community or hospital services.

| |
|---------------------|
| ROLE PURPOSE |
|---------------------|

| |
|---|
| Paediatric oncology survivorship is a growing area of clinical expertise and patient demand. IMPORTANT INFORMATION

The successful applicant will be formally recruited to the position and will be expected to:

Act in accordance and comply with all relevant Safety and Quality policies and procedures

- Participate in and contribute to quality improvement programs and commit to health service values
- Comply with the Requirements of the National Safety & Quality Health Service Standards
- Comply with all relevant clinical and/or competency standards

Comply with the principles of Patient and Family Centred Care that relate to this position

All employees are required to adhere to the Royal Children's Hospital Values:

- Unity - We work as a team and in partnership with our communities
- Respect - We respect the rights of all and treat people the way we would like them to treat us
- Integrity - We believe that how we work is as important as the work we do
- Excellence - We are committed to achieving our goals and improving outcomes

RCH COMPACT

All new and existing employees commit to the RCH Compact to contribute to a strong and respectful culture.

- We do better work caring for children and families when we also care for each other
- I bring a positive attitude to work – I share, I laugh, I enjoy other's company
- I take responsibility for my behaviour and its impact on others
- I am curious and seek out ways to constantly learn and improve
- I celebrate the good stuff, the small stuff, the big stuff – it all matters
- I speak up when things aren't right
- I value the many different roles it takes to deliver great patient care
- I actively listen because I want to understand others and make better decisions
- I am inclusive and value diversity
- When it comes to teamwork, I don't hold back – I'm all in.

QUALITY, SAFETY AND IMPROVEMENT

RCH Employees have a responsibility and accountability to contribute to the organisation's commitment to Quality, Safety and Improvement by:

- Acting in accordance and complying with all relevant Safety and Quality policies and procedures
- Identifying risks, reporting and being actively involved in risk mitigation strategies
- Participating in and actively contributing to quality improvement programs
- Complying with the requirements of the National Safety & Quality Health Service Standards
- Complying with all relevant clinical and/or competency standards
- Complying with the principles of Patient and Family Centred Care that relate to this position

The RCH is committed to a diverse and inclusive workforce. We encourage applications from Aboriginal and Torres Strait Islander people, all members of the LGBTQI community and people with disability.
