The Royal Children's Hospital

The Royal Children's Hospital (RCH) has cared for the children and young people of Victoria since it was founded in 1870. As a tertiary and quaternary centre, the RCH cares for the most critically ill and medically complex paediatric patients in Victoria. In addition to providing a full range of clinical services, the hospital also supports many health promotion and prevention programs. With more than 6,000 staff, 12 wards and 350 beds, the RCH is the major specialist paediatric hospital in Victoria, and also provides care for children and young people from Tasmania, southern New South Wales and other states around Australia and overseas.

We are the state's busiest paediatric Emergency Department, often experiencing more than 300 presentations on any given day. The RCH is committed to working with health services across the state and plays a significant role in many critical state and nationwide services. We work collaboratively with hospitals to deliver the right care, in the right place, at the right time, for the benefit of all Victorian children. The Royal Children's Hospital is committed to the safety and wellbeing of all children and young people. In April 2016, the RCH became the first Australian hospital to implement the world-leading 'Epic' electronic medical record (EMR). RCH has a strong focus on supporting the successful delivery of the Parkville Connecting Care program – a shared EMR with the Royal Women's Hospital, The Royal Melbourne Hospital and Peter MacCallum Cancer Centre.

The RCH is located within the Melbourne Biomedical Precinct, which is home to more than 45 world-class biomedical organisations, with collectively more than 50,000 of the brightest minds working together to make the Precinct number one in the Asia Pacific region.
