

# **Position description**

Position title	Parkville EMR Analyst	
Department / Division	Parkville EMR (Operations)	
Classification	Grade 6 Year 1 – Grade 6 Year 5	
	(AO61 – AO65)	
Position reports to	Parkville EMR Lead	
No. of direct & indirect reports	N/A	
Location	The Royal Children's Hospital, Flemington Road, Parkville	
Risk category	Category C - works in a non-clinical setting, non-patient facing setting and only attends clinical areas infrequently	

#### Parkville Electronic Medical Record (EMR)

The Parkville EMR is a digital partnership between The Royal Children's Hospital (RCH), Peter MacCallum Cancer Centre (Peter Mac), The Royal Melbourne Health (RMH) and The Royal Women's Hospital (RWH). The Parkville EMR team (employed by RCH) maintains, operates, and optimises the Parkville EMR Service for the benefit of all 4 health services. The Parkville precinct partners are committed to continuing the success of the EMR to deliver the vision as a world class EMR, shared with patients, to support the delivery of safe, high quality and seamless healthcare across Parkville and improve health outcomes for all Victorians.

### The Royal Children's Hospital

The Royal Children's Hospital's (RCH) vision is A world where all kids thrive.

RCH is located within the Melbourne Biomedical Precinct, with more than 45 world-class biomedical organisations and more than 50,000 of the brightest minds working together to make the Precinct number one in the Asia Pacific region for health, education, research, and training. Within this, RCH is also a cornerstone member of the Melbourne Children's Campus, partnering with Murdoch Children's Research Institute, The University of Melbourne Department of Paediatrics and The Royal Children's Hospital Foundation. Each organisation contributes to a paediatric academic health centre which is greater than the sum of its parts.

RCH has cared for the children and young people of Victoria for more than 150 years since it was founded in 1870. A full range of paediatric and adolescent health services are provided plus tertiary and quaternary care for the most critically ill and medically complex patients in Victoria. Tasmania, southern NSW and other states around Australia and overseas. The RCH is the only provider of heart transplant services and CAR T-cell therapy for paediatrics in Australia. RCH is an effective advocate for patients and their families with a particular focus on vulnerable children and increasingly, mental health in young people. The hospital also supports many health promotion and prevention programs. The Hospital has more than 6,000 staff, a budget of \$850M, 12 wards and 350 beds. Annually, the RCH has 300,000+ Specialist Clinic appointments, 90,000+ Emergency Department presentations and 20,000 elective surgeries.

We work collaboratively with hospitals to deliver the right care, in the right place, at the right time. The RCH is committed to the Child Safe Standards <a href="https://www.rch.org.au/quality/child-safety/">https://www.rch.org.au/quality/child-safety/</a>.

RCH enjoys high employee engagement and is committed to staff safety and a positive culture through enactment of our Compact. Further information on RCH is available at <a href="https://www.rch.org.au">www.rch.org.au</a>

#### **Peter MacCallum Cancer Centre**

The Peter MacCallum Cancer Centre (Peter Mac) is a Victorian public health service and a world-leading comprehensive cancer centre seeking to excel across all spheres of clinical care, research, and education. We have the largest cancer research enterprise in Australia and provide treatment to about 40,000 people with cancer each year.

At Peter Mac we aim to continuously improve cancer care, research and education across all cancers and for all people affected by cancer: changing lives, breaking new ground. Everything we do is underpinned by our core values, Excellence, Compassion and Innovation. Welcoming people from a wide variety of different backgrounds and experiences is critical to fostering innovation, cultivating compassion, attracting and retaining top talent and providing the best possible cancer care for our patients.

#### The Royal Melbourne Hospital

The Royal Melbourne Hospital (RMH) began in 1848 as Victoria's first public hospital. And while we only had 10 beds to our name, we had the community of Melbourne behind us, and we were ready to provide the best possible care for those in need.

Since those early years, we've moved forward with purpose. Always at the forefront, leading the way on improving the quality of life for all.

Today the RMH is one of the largest health providers in the state, providing a comprehensive range of specialist medical, surgical, and mental health services; as well as rehabilitation, aged care, outpatient and community programs.

Our reputation for caring for all Melburnians is as essential to who we are as any scientific breakthrough we make. We're here when it matters most, and we'll continue to be the first to speak out for our diverse community's wellbeing.

# The Royal Women's Hospital

Since 1856, the Royal Women's Hospital (the Women's) has been providing health services to women and newborn babies in Victoria. Today, the Women's is one of Australia's leading specialist public hospital dedicated and advocating for the health and wellbeing of women and newborns. Through our campus at Parkville and by supporting ten research centres, the Women's is advancing healthcare for women in maternity services and the care of newborn babies, gynaecology, women's health and women's cancer services.

### **ROLE PURPOSE**

Parkville EMR Analysts are responsible for the design, build, testing, configuration, installation and support of the EMR applications that they are assigned.

Parkville EMR Analysts support system configurations for Epic modules to ensure they align to the local requirements and strategic direction of the Parkville organisations. The role ensures that Epic solutions meet the needs of all 4 health services to maximise streamlined and standardised workflows.

# **KEY ACCOUNTABILITIES**

# **Application Support**

- Actively monitor, resolve and troubleshoot incident and service requests to provide a responsive and agile day to day support service that meets the needs of supporting the Parkville EMR Team and Parkville Health Services;
- Perform analysis of workflows, enhancement requests and other technical issues associated with the EMR and develop functional and technical solutions that reflect an in-depth understanding of the user's requirements;
- Configure, build, test and perform system maintenance tasks to ensure the EMR application is available, current and well maintained;
- Design and build approved EMR Enhancements to ensure that end users are effectively engaged in the continuous improvement of the EMR to continue to support and improve the delivery of care provided;
- Complete allocated special updates and system upgrades including review of release notes, build, testing and identification of training and workflow impacts;
- Design, validate and confirm any new or changed system functionality with impacted stakeholders;
- Perform system testing, including the development and maintenance of test plans, scripts, execution of testing and remediation of issues identified through testing;
- Maintain system, training and support documentation;

- Other tasks as directed by Senior/Lead Analysts and/or EMR Application Managers/Director consistent with the employee's skill level and classification.
- This position may be required to work on a rotating on call roster after hours and will be renumerated as per the award entitlements.

## **Team Leadership & Support**

- Create a positive and supportive work environment for all EMR Application Team members;
- Pro-actively build and maintain a good working relationship with the Parkville EMR team and a wide range of Precinct stakeholders

### **Incident Management, Business Continuity & System Outage Management**

- Assist with co-ordination of planning for system outages, upgrade and system updates;
- Perform EMR Triage role out of hours when rostered;
- Participate in post-implementation reviews for relevant critical EMR incidents and planned outages;
- Monitor and maintain the EMR Business Continuity Access systems.
- Provide 2nd level helpdesk support and manage with emergency changes required for fixes and production support.

# **Training Support**

- Identify changes required and update training materials and training environment;
- Support education leads with training environment build when required;
- Deliver EMR training when required;
- Provide support and education where required to upskill helpdesk on new workflows or big changes for the application.

#### **Technical Expertise**

- Demonstrated knowledge of Epic EMR environment (or similar software) including; design, build, overall
  architecture, end user devices and interfaces;
- Maintain working knowledge of interfaced applications;
- Work with the report writers in the application and the reporting team, to ensure that the application can produce the necessary reports;

#### **Relationship Management & Communication**

- Develop and maintain a good working relationship with EMR leadership team, EMR application teams, local health service EMR teams, EMR vendor, project teams, technical teams and local health services to ensure the system configuration aligns with local requirements and strategic directions;
- Work closely with health service EMR teams and Parkville clinical services and clinicians to understand and prioritise enhancement requests:
- Support and participate in Parkville EMR governance and other committee meetings as directed by the application Lead;
- Provide multiple solutions to problems identified and communicate options with stakeholders;
- Present technical concepts in simple and understandable terms so as both technical and non-technical audiences gain an understanding of the problem and proposed solution;
- Provider a customer service response to problems and questions from end users

# **QUALIFICATIONS AND EXPERIENCE**

#### **Essential:**

- Tertiary qualifications in a related field and/or relevant industry experience spanning 7+ years
- Demonstrated ability to engage and build strong relationships
- Demonstrated ability to lead and contribute as part of a team
- Demonstrated proficiency in the use of established administrative processes

- Experience in continuous improvement & learning
- Ability to work autonomously

#### Desirable:

- Epic certification and/or equivalent experience;
- Experience working in a tertiary hospital environment is highly desirable;
- Experience working with EMRs and/or Healthcare/eHealth applications will be highly regarded;

#### **KEY SELECTION CRITERIA**

- Expert knowledge and demonstrated EMR application management experience;
- Demonstrated knowledge of EMR environment including application, infrastructure and end user devices;
- Demonstrated experience in IT support processes and systems;
- Demonstrated experience in implementation and integration of health care and knowledge of integration standards (e.g. HL7);
- Broad experience and knowledge of PAS and other common health care applications;
- Proactive and takes initiative and responsibility;
- Proven leadership capabilities and strong stakeholder management skills with particular emphasis on influencing, negotiating and gaining consensus;
- Strong interpersonal skills with particular emphasis on gaining consensus, facilitation and consultation;
- Ability to present technical concepts in simple and understandable terms so as both technical and non-technical audiences gain an understanding;
- Experience in managing complex work environments and conflicting stakeholder interests;
- Well-developed organisational skills and ability to manage conflicting priorities in order to meet deadlines;
- Highly developed analytical and innovative problem solving skills;
- Demonstrated ability to providing multiple solutions to a problem and communicate with stakeholders and agree a way forward.
- Excellent oral and written communication skills.
- Competent in using MS Project, Visio, Word and Excel to support project management functions.
- Ability to clearly define, articulate and document strategy, processes and procedures;
- Ability to critically review design documents and specifications with an eye for detail;
- Ability to present to groups of people.

#### **OTHER REQUIREMENTS**

- Employees are required to undertake a National Criminal Record Check and a Working with Children Check prior to commencing employment
- Employees are required to maintain a valid Working with Children's Check throughout their employment
- A current, full driver's licence for the State of Victoria which is appropriate for the type of vehicle being driven, and comply with any restrictions on their licence (e.g. wearing glasses) while undertaking hospital duties (If applicable)
- Employees are required to maintain compliance with RCHs "Staff Immunisation Prevention of Vaccine Preventable Diseases" procedure.

#### IMPORTANT INFORMATION

All employees are required to adhere to the Royal Children's Hospital Values:

- Curious We are creative, playful and collaborative
- Courageous We pursue our goals with determination, ambition and confidence
- Inclusive We embrace diversity, communicate well, build connections and celebrate our successes together
- Kind We are generous, warm and understanding

#### **RCH COMPACT**

All new and existing employees commit to the RCH Compact to contribute to a strong and respectful culture.

- We do better work caring for children and families when we also care for each other
- I bring a positive attitude to work I share, I laugh, I enjoy other's company
- I take responsibility for my behaviour and its impact on others
- I am curious and seek out ways to constantly learn and improve
- I celebrate the good stuff, the small stuff, the big stuff it all matters
- I speak up when things aren't right
- I value the many different roles it takes to deliver great patient care
- I actively listen because I want to understand others and make better decisions
- I am inclusive and value diversity
- When it comes to teamwork, I don't hold back I'm all in

#### **QUALITY, SAFETY AND IMPROVEMENT**

RCH employees have a responsibility and accountability to contribute to the organisation's commitment to Quality, Safety and Improvement by:

- Acting in accordance and complying with all relevant Safety and Quality policies and procedures
- Identifying risks, reporting and being actively involved in risk mitigation strategies
- Participating in and actively contributing to quality improvement programs
- Complying with the requirements of the National Safety & Quality Health Service Standards
- Complying with all relevant clinical and/or competency standards
- Complying with the principles of Patient and Family Centred Care that relate to this position

The RCH is committed to a diverse and inclusive workforce. We encourage applications from Aboriginal and Torres Strait Islander people, people from culturally and/or linguistically diverse backgrounds, all members of the LGBTQI community and people with disability.
